Alexander Hamilton was one of the strongest forces in the founding of our Constitutional System. His brilliant essays in the *Federalist Papers* profoundly influenced the Constitutional Convention, and during eight years as George Washington's Secretary of the Treasury he did much to develop the system of checks and balances which prevails to this day.

Mrs. Valentine Hollingsworth, Jr., Hamilton's great-great-great granddaughter, is the sponsor of the Polaris-firing nuclear powered submarine which bears his name.
